(Principal)

### Action Taken Report for Teachers/Faculty feedback on Curriculum 2021-22

In this academic year we obtained full positive responses here. Still we are running following practices to strengthen the curriculum.

- The Principal and senior faculty provide necessary knowledge and course objectives to staff members.
- We ask the subject in-charge at the library for a list of newly published text and reference books.
- The experiments are based on theoretical topics, and teachers conduct these experiments accordingly.
- In practical, students fully grab the principles, procedures and application. Teachers encourage students to think critically and implement their knowledge.
- The time span allotted by the university provides a sufficient number of hours to cover the syllabus including assignments.
- By organize events where students can present their seminar topics, projects, to their peers and faculty, fostering a culture of knowledge sharing.
- Management provides all possible kind of facility to conduct the curriculum effectively.
- Each faculty member discusses the importance of CO's, PO's, and PEO's with the students.
- Offer opportunities for students to earn relevant industry certifications alongside their academic degrees, enhancing their employability.
