On the occasion of World Pharmacist Day on 25th September, rallies have been organized to create awareness about the prevention of certain deadly diseases such as AIDS, swine flu, polio, malaria, etc., and also to understand the role of Pharmacists in human health care and safe use of medicine in the community.

During the COVID-19 pandemic, an Awareness program was conducted for precautions to be taken on covid 19, regular use of sanitiser, and masks, maintaining social distancing, getting vaccinated, etc. through online and offline mode which increased awareness in the community of the disease. During the pandemic, our students were aware of the people and distributed masks, sanitisers, fruits, and sanitiser pumps in rural areas. Students also helped the doctors and nurses at the vaccination centre (PHC) and encouraged the people to get vaccinated and stay prevented
