### Activity Report 2022-2023

**Title of Event-** Hands on Training Workshop on Design of Experiments and Statistics for Pharmaceutical Research

**Date:** - 24/9/2022

**Venue:** – SES Department of P'ceutical Chemistry, Pharmaceutics and IQAC Cell H.R.Patel Institute of P'ceutical Education & Research Shirpur

**Time:** - 10.00am to 4.00pm

**In-Charge of activity:** - Dr.P.O.Patil Dr.L.R.Zawar

**No. of Participants-**11

**Brief Description of event:** - Our college 11 students participate in this workshop on the date of 24/09/2022 to learn design space creation and overall design of experiment, you also need some knowledge of Risk assessment and critical parameter assessment. There are plenty of books available for this topic but it's better to go through research papers related to specific field of interest. That will give you a better perspective of it. Usually, there are many input factors that may affect quality of product and methods. Recently, Design of Experiments (DoE) have been widely used to understand the effects of multidimensional and interactions of input factors on the output responses of pharmaceutical products and analytical methods.
